Made in Switzerland

The best has become even better!

The backpack sprayers from Birchmeier have been the equipment of choice for demanding users for over 120 years. Their robustness is legendary and unbeatable. The best backpack sprayers in the world are characterised by functionality and ease of use. The new generation of Spray-Matic 10 B: the uncompromising evolution of tried and proven products.

The pump – the driving engine

The well-proven parts of the sturdy piston pump have been retained: the brass cylinder, the adjustable rubber piston ring, the simple to maintain non-return valve and the integrated grease cup. For even greater reliability, certain details have been enhanced – for example, a 180°-swivel hose fitting, a brass tank connection with fine filter, easy access to the filters, etc.

Stainless steel pump lever

Sets new standards concerning ergonomics and power transmission.

New trigger valve

Well-proven brass trigger valve with a new locking and blocking function.

User-friendly and comfortable

- Top comfort by means of ergonomic design throughout
- Left or right handed operation, configured in seconds
- New pump lever system: Anatomically shaped, length-adjustable and made of stainless steel
- Padded S-shaped carrying belts with click system
- 60 cm brass spray tube

«Look and feel»
the ergonomics

Robust and reliable

The guarantee for unrivalled quality and long life is the uncompromising use of high-quality materials, such as composite materials, brass and stainless steel.
